Quality in the Right Place

Expensive upholstery doesn't prove that a car excels in quality. The real quality of a car is determined by its chassis—its power plant, transmission, axles, etc. Both by laboratory tests and actual service tests, the different parts composing the Ford chassis have proven themselves superior to those used in other cars. Ford Vanadium steel has never been surpassed in quality and strength.

Socialist to Contest
This Constituency

Representatives of the Socialist Party of Canada, in the Red Deer Federal District held a convention at the Windsor Hotel, Red Deer on Wednesday Aug. 1st, for the purpose of nominating a candidate for the next federal election.

The whole of the constituency was well represented, delegates being present from each district. J. P. Knox, an experienced chairman and after formally opening the meeting he read a telegram received from the Red Deer district that J. R. Knight, of Edmonton—late candidate in the Stettler Constituency, be nominated to contest the federal riding of Red Deer. The reading of same was received with much applause.

The result of the convention was that Joseph R. Knight was nominated as candidate for the next federal election in the Red Deer constituency by a unanimous vote.

A committee was appointed to take charge of the work of organizing and to raise the necessary funds to run the campaign. Members of the same being Geo. Paton, Jr.—Chairman, Archibald Rowell, Secretary-Treasurer, Geo. Paton, Jr., Chairman, Archibald Paton Sr., Malcolm McNeill, and Alfred Isaacson.

The electorate of Red Deer have every reason to feel gratified in securing Mr. Knight as candidate as he is one of the ablest exponents of Socialism in Canada. He is a mine of information and knowledge and also a very fluent speaker. Even opponents to Socialism who have had the pleasure of hearing him speak have to admit that his lectures are of a very high standard, being both interesting and instructive.

During the last provincial election Mr. Knight had the pleasure of hearing him speak have to admit that his lectures are of a very high standard, being both interesting and instructive.

Mr. Knight intends to open his campaign at an early date. This we feel sure, will be heartily appreciated by residents of this district. Dates of meetings will be announced later.

Cheer Up!

News-Telegram:

It can not be too vigorously brought to the attention of Albertans that this season's crop when computed in dollars and cents, far surpasses an average Alberta crop, as averages went prior to the recent two years of bumper yields. This fact should mean a wonderful prosperity to Alberta and to Calgary, and it is just as well that people realize the condition fully, that the measure of prosperity which will result may commence its visitation as speedily as possible.

The residents of this city and of this province have seen the bank clearings show a remarkable gain week and month after month since the era of depression following the oil boom, have seen record prices for all that Alberta produces in the way of natural wealth, and yet there has been an unaccountable lassitude in certain commercial circles.

In the words of the street it is "up to" every Calgarian and to every Albertan, to boost for this land of great prosperity, and to generate a confidence among all classes that the future will be very rosy indeed and that the

time to prepare for peace by establishment of larger business is now.

Alberta is good enough for anyone, and being good enough to boost for. It has had crops for the past three years such as no other section of the continent has had, and that speaks volumes. That being so, tell people about it, write of it to friends abroad and across the line, get the cheerful, optimistic habit and you will not only be a greater benefit to the town and the country hereabouts but will have created a happier state of mind for yourself.

Will the Traitors
Rule Canada?

Montreal, Aug. 12.—Paul Lortie, one of the young "fire-eating" anti-conscriptionists of the nightly "open-air" meetings at a small gathering on the Champ de Mars tonight referred to the attempted destruction by dynamite of Lord Atholstan's summer residence at Cartierville while Lord Atholstan was asleep in the house. He said:

"The affair at Cartierville shows that we are not cowards. What was done at Cartierville was well done and I am not afraid to say so."

Fernand Villeneuve, an 18-year old advocate of killing any persons who would attempt to put conscription into force, declared tonight that if the government general signed the bill, the people would do what their forefathers had done in 1837, and the affair at Cartierville would be a "only a peanut" to what would come.

A SATISFIED LEADER

When patriotic Liberals of the rank and file of the party have time to think calmly over the decision of the Winnipeg convention

it is certain they will not feel like congratulating themselves. What the convention led and managed by party machine workers, did has strongly emphasized the need for a purely non-partisan, win-the-war administration for Canada. Also it shows the hopelessness of expecting anything of the sort from the Liberal party leaders.

If there had been any doubt as to the crooked attitude of the convention's win-the-war resolution it was removed when Hon. Frank Oliver announced that he had received a telegram from Sir Wilfrid Laurier saying the resolution was entirely satisfactory to him. The rank and file of the Liberal party in the west desired to pledge themselves to the policy of conscription, their convention managers refused them that privilege.

The resolution passed carefully avoids use of the word. Sir Wilfrid Laurier is opposed to conscription and proposes to carry Quebec on a non-conscription policy. He is satisfied with the resolution passed by the Winnipeg convention. Well, he might be. It was planned to meet the needs of his two-faced campaign policy.

our boys from this district? Letters have been received thanking us for the little parcels we sent them. Therefore it should be our duty to keep this good work going for those who are fighting and laying down their lives for us.

Having is in full swing, everybody busy and a good crop for a dry year.

Mr. Wm. Lee is again in the trenches, he is asking for sugar, as same is impossible to get over there. Anyone feeling disposed to send our boys this little luxury, same will be gratefully accepted.

It is rumoured once more that we should change the name of our burg, as same is not Canadian or Patriotic. Why not put same in action and talk less.

Mr. Walker Easthouse and Mr. Elvin Cumberland arrived back in our valley from the south country. These parts look good to them after being in the south.

Great improvements have been done on the roads this year. Much praise should be given to our foreman, Mr. Jackson, who has surely showed that it is possible to build roads in a country like ours. This work has proved that he is the man for the people.

Great improvements have been done to our school, a well sunk, which was needed so bad, and a fence put around the school, which is a credit to the district, all to the credit of Mr. L. Boyer.

Western Liberals Pass Resolutions Sidestepping the Great Question

The following is the resolution which was moved by Dr. D. B. Neely, Humboldt, Sask., seconded by Capt. C. S. Reilly, Calgary, and carried:

"In this war for the defence of democratic civilization against military despotism, the conditions call for the putting forth by each allied belligerent of its full power as the only assurance of victory; in times of peril the entire resources of the country moral and material, man power and wealth are justly disposable by the state for the preservation of its national existence."

"The imperative duty of the people of Canada in regard to the war is its continued and vigorous prosecution:

"1. By conferring with the British government for the purpose of definitely ascertaining the scope and character of all the service that can best be rendered by Canada in the conduct of the war."

"2. By the maintenance in unimpaired strength at the front of our fighting forces and the taking of all steps necessary to secure required reinforcements for the Canadian contingent;

"3. By organizing the production of our other contributions to the war such as food, munitions, and other war necessities, upon lines of the greatest efficiency."

"4. By the complete extinction of profiteering in all business having to do with munitions and the necessities of life, if necessary by the nationalization of these industries or by the adoption of the British system of controlled establishments."

"5. By the recovery for the public treasury of undue profits obtained since the beginning of the war by the exploitation of the interest of the people for the present requirements of the state."

"6. By the application of a combined system of sharply graduated taxation upon incomes and excess profits which shall insure that every citizen shall bear his or her full share of the war burden according to his or her means."

"7. By thoroughly organizing the nation and carrying out this program by whatever means may be necessary for its accomplishment."

To Save Market- ing Waste

This is a period of conservation, a time of saving. The war may be considered an incident, a most terrible one, it is true, but it is driving home the necessity of saving. Naturally, the war has been responsible for rapid increases in food prices. This has been so conspicuous that we could not help but see it. Other

causes, however, have also been at work to help advance food prices and one of them is the waste in marketing. In the past, hundreds and even thousands of carloads of perishable food products have rotted in the fields for lack of transportation or because of expensive marketing. Western farmers have not suffered much from food rotting, as little of their produce is of such a perishable character, but many of them have let in other ways through inadequate transportation, or excessive marketing cost.

In many parts of the U.S., an advanced step in marketing is being taken by organizing marketing clubs. These clubs, although far from effective as marketing agencies are proving themselves by bringing about a means of closer co-operation throughout their encouraging a study of marketing and in a general way educating the members to the common difficulties that must be overcome before more economical marketing can be expected. The main feature of course is co-operation. Get together and ship or purchase by the carload. The U.F.A. through their locals, are doing good work along this line.

There never was a time in our history when real co-operation between producers and transportation companies was so essential as today. Every available car must be used to its fullest in this time of fuel and labor scarcity and no individual is entitled at this critical period to hold a car for a day or even an hour longer than is absolutely necessary.

This is the time for mutual effort and broad co-operation for farmers first with each other and then collectively with the transportation companies.

MORTGAGE SALE OF FARM PROPERTY NEAR LACOMBE ALBERTA

Pursuant to the directions of the Registrar and by virtue of the Powers of Sale provided by The Land Titles Act under a certain mortgage which will be produced at the time of the sale, there will be offered for sale by public auction in front of the post office in the village of Bentley in the Province of Alberta, on Saturday the 18th day of August 1917, at the hour of 1:30 o'clock in the afternoon, the following property namely:

All that portion of the Southwest-quarter of Section Thirty-six (36) Township Forty-two (42) Range two (2) west of the fifth Meridian in the Province of Alberta, which was not covered by any of the waters of Blindman River, containing 156.49 acres more or less, excepting 5.45 acres more or less for a roadway, also excepting mines and minerals.

Terms of the sale to be twenty per cent. cash at the time of the sale and the balance according to the terms and conditions to be made known at the time of sale or upon application to the vendor's solicitors.

The above property will be offered for sale subject to a sealed reserve bid and free from all encumbrances save taxes for the current year.

DELCO-LIGHT

For the first time electric light and power are available to anyone—anywhere. Heretofore, the benefits of electricity have been confined to those who live in the larger towns and cities.

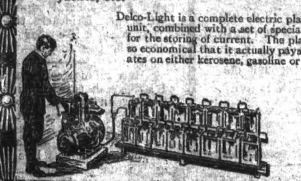

Now Delco-Light makes electric current universally available.

Delco-Light is today furnishing thousands of farm-houses with brilliant, convenient, safe and economical light.

It is furnishing power to operate pumps, washing machines, churns, cream separators, milking machines, vacuum cleaners, etc.

It is lighting country churches, stores and public halls.

It is furnishing light and power to summer homes and camps, to houseboats and yachts, etc.

Delco-Light is a complete electric plant—the engine and dynamo in one compact unit, combined with a set of specially built and wonderfully efficient batteries for the storing of current. The plant is so simple a child can care for it and so economical that it actually pays for itself in time and labor saved. It operates on either kerosene, gasoline or natural gas.

It is lighting rural railway stations and construction camps.

It is lighting the camps of United States troops on the Mexican border, and it is disclosing heretofore undreamed-of beauties in the depths of Mammoth Cave, Kentucky.

Altogether, over 15,000 Delco-Light plants are in operation, and Delco-Light offices and service stations are to be found in almost every part of the world.

Note and Comment

Machine Liberalism controlled the Winnipeg convention, but machine Liberalism will not find the task of controlling the party in the country so easy.

German rule in Warsaw has been brief but not so brief but that it became objectionable to the Poles, who were supposed to be set free from the Russian yoke or bondage by the Huns. Now there is rumor of a revolt.

As a result of the recent rains Alberta is assured a good general average crop. All that is now needed is a few weeks of fine weather to bring the grain into a fully ripened state and permit of harvesting. Then for the sound of the threshing.

The Liberals of the west at Winnipeg chose party as against national welfare. They missed the opportunity of a lifetime. Sir Robert should now grasp what the Liberals have refused and quickly form a non-partisan government for a win-the-war appeal to the country.

Financially Canada is carrying her war burden nobly. Credit for this is due largely to Sir Thomas White, finance minister, who seems to be the pet aversion of the Liberal opposition in parliament. Evidently the opposition doesn't like Sir Thomas because he has done it well.

A Hun submarine crew attacked a Spanish trawler, sinking it and wounding the crew. Later an apology was sent to the wounded men, the excuse being that they were mistaken for Frenchmen. That is like murdering an innocent man and then apologizing to the corpse.

Winnipeg young men who are wasting their time playing tennis when they should be at the front in khaki, were severely scored by a legless lieutenant in the Manitoba capital. But the Winnipeg tennis players are not alone; their breed is to be found in every city in the Dominion.

Archbishop Bruchesi is fearful of racial warfare in Canada, and Mayor Martin is counselling the people of Quebec to remain orderly. If these leaders of the people in Quebec had shown fear and given good council earlier in the game there would be less danger today. It is unfortunate that their foresight was not at least as good as their hindsight.

"If conscription had not passed parliament we should have all felt deserted," writes a Canadian officer from the front. Conscription has passed parliament, but it will not be safe as a law until after the general election is over. Laurier will have none of it if he can help himself. "Do the Canadian people want to desert their sons and brothers at the front?"

By his bold stand in favor of conscription in the face of the

The new McLaughlin Light Six, D-6-63 is the ideal car for the man who wants the smooth, flexible power of a six-cylinder car at a popular price. This new McLaughlin is an improvement on and continuance of Model D-60. It is a more powerful car than its predecessor, and represents greatly enhanced values, with but a nominal increase in price to cover the increased size and additional features.

This McLaughlin model has more actual power and more proportional power than any car of its size—one H.P. to every 54 lbs. of weight. Gasoline consumption is very low, and cases are numerous where owners secured upwards of 28 miles on a gallon of gasoline. Let us demonstrate this car to you.

known hostility of a overwhelming majority of his fellow delegates at the Winnipeg convention, J. G. Turrill proved that he is not only a loyal son of Canada and the Empire, but also that he has the courage of his convictions. In this respect he and a few other western Liberals stand head and shoulders above their colleagues.

Hon. C. W. Cross should feel proud of that resolution on the Borden government which he brought up in the resolutions committee of the Liberal convention. For "malicious" "unfriendly" "partisan narrowness and general meanness, it has anything and everything of its kind beaten a mile. In fact, it was so bad that even the die-hard machine Liberals on the committee balked when it was read to them.

Montreal, Aug. 8.—The most violent and anti-conscription talk heard so far in the city was indulged in tonight at a meeting held in Lafontaine park under the auspices of the "Constitutionalists," of which Elie Lalumière is the head. He is the young man who announced, some time ago, that he had hundreds of men drilling in anticipation of conscription.

Fernand Villeneuve said: "If a recruiting officer comes to your house give him a thrashing and if you have anything to shoot with, don't be afraid to use it."

STOCK KILLED BY EATING POISONOUS WEED

Two farmers of Arbor Park District near Ponoka, have recently lost cows in a mysterious manner, while other stock have been affected.

The Dominion Department of Agriculture was communicated with and Inspector Gillan, of Edmonton, visited the district on Monday. He attributed the cause to eating a poisonous weed known as water hemlock or water parsnip. The weed is found around and sometimes in sloughs and along the stem and roots are very poisonous.

In conversation with Mr. Gillan, he thought it would be a good thing to get the school children interested in each district where the weed makes its appearance, and have it eradicated as much as possible.

It is said to be very plentiful in the northern districts of the province.

FOOD RESTRICTIONS FOR THE CANADIAN PEOPLE

Ottawa, Aug. 9.—Regulations for restricting the use of beef, bacon and white bread in public eating places and for prohibiting the use of wheat in the distillation or manufacture of alcohol, have been promulgated by order-in-council at the instance of the food controller. The serving of beef and bacon is prohibited on Tuesdays and Fridays, and at more than one meal on any other day. Substitutes such as corn bread, oat cakes, etc., must be provided at every meal at which white bread is not served.

Traitors to Canada

Winnipeg, Aug. 9.—Characterizing the win-the-war resolution passed by the Liberal convention last night as "cunningly twisted" to appear like a conscription resolution, and denouncing the endorsement of Sir Wilfrid Laurier as leader, the executive council of the Great War Veterans, tonight unanimously adopted the following resolutions:

"We, the Great War Veterans' association of over 1800 returned officers and men of the present war do place ourselves on record as follows:

"(1) That we read with amazement and scorn of the resolutions passed at the Liberal convention:

"(2) That we are of opinion that the delegates present have not the slightest conception of the war conditions, and have no interest in the efficient conduct of Canada's share in the war excepting so far as the interests of themselves and their party are advanced:

"(3) That so-called win-the-war resolution as adopted by the convention is mockery and an insult to the Canadians at the front, as the resolution is a cunningly twisted arrangement of words deliberately intended to simulate a conscription resolution, without in any way binding the Liberal party.

"(4) That the endorsement of Sir Wilfrid Laurier, the leader of a part of the Dominion which is solidly against conscription and which would, if allowed, permit our boys at the front to go without reinforcements—rather than send a man from their province, is an insult to western Canadians, and the nomination of such a man as leader is totally incompatible with any win-the-war resolution.

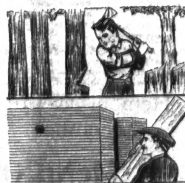

"(5) That we denounce the majority of the delegates to the convention as party politicians, as men who made no attempt to avoid a general election at the most critical time in the empire's history. In short, we denounce these men as traitors to the country."

How the Western Liberals can alterably opposed to conscription, as their leader, is something the average man will find it difficult to understand.

Mortgage Sale of Valuable Farm Property.

Under and by virtue of the Powers of Sale provided by the Land Titles Act, under a certain mortgage which will be produced at the time of the sale, there will be offered for sale by public auction at the office of John McKenty, in the Town of Lacombe, in the Province of Alberta, on Saturday, August 25, 1917, at the hour of 1:30 o'clock in the afternoon, the following property namely:

The North East Quarter of Section Twenty-seven (27) in Township Forty-one (41) and Range (20) West of the 4th Meridian in the province of Alberta containing One Hundred and fifty three and (163-58-100) Fifty-eight-one Hundredths acres more or less, excepting mines and minerals and subject to the reservations and conditions expressed in the Grant from the Crown and in the existing Certificate of

Title. Terms of the sale to be 20 per cent. cash at the time of the sale, and the balance according to the terms and conditions to be made known at the time of the sale or on application to the Vendor's Solicitors.

The above property will be offered for sale subject to a sealed reserve bid free from all encumbrances, save taxes for the current year.

The Vendor is informed that the above property is situate about one (1) mile from Morningside Station, and that about Fifty acres of the said land are suitable for cultivation. There are about one-half a mile of fencing on the said quarter-section, but no buildings.

For further particulars and conditions of sale, apply to Odell and Russell, Barristers, Wetaskiwin, Alberta. Dated at Wetaskiwin, this 25th day of, July, A. D. 1917. Approved, L. R. Jackson, A. D. Registrar. ODELL & RUSSELL, Vendor's Solicitors.

'The Birth of a Nation' Will be Shown in Lacombe, August 28th

D. W. Griffith's master production "The Birth of a Nation" will be the attraction at the Rex Theatre on Tuesday evening August 28th.

It will be brought here in exact reproduction of the great attraction which is now in New York where it has broken every record of the American stage. These achievements alone have aroused more comment upon the subject of this great story than was ever devoted to a theatrical enterprise before.

The merest statement regarding "The Birth of a Nation" leaps to superlatives because there is no other form in which it can be written. Simple facts in relationship to its developments sound extravagant until you have seen the production and realized a title of its sweep and power. It covers the essential details of American history ranging through three centuries. Actual battles are shown with tens of thousands of soldiers in the conflict. 18,000 people participated in the telling of the story. Three thousand horses were used to give the cavalry and other thrilling effects of the wild dashes over miles of territory. Cities were built up only to be destroyed by fire. The total cost of the entire production was in the neighborhood of \$500,000. Five hundred costumes and seamstresses worked for three months to make the costumes worn by the people. 10,000 yards of cloth were worked into the costumes worn by the women, while 25,000 yards of white muslin were used up in the regalia of the Ku Klux Klanmen. And with all this a simple human story of love and romance weaves through the vast scheme of the action and grips the hearts of the audience. The narrative is filled with tears and smiles. A symphonic score accompanies the action and lends a potent force to the drama.

ALBANIA TICKLISH PROBLEM

"Albania? Where have I seen that name before? What is Albania, anyway, and where the mischief is it?"

Thus the average Canadian. One wrote to a friend in Albania and the latter replied: "Albania, in New York. The postal person there wrote upon the envelope: 'Not Albany, try Asia.' That is as close geographical connection as most of us can make."

This unknown land is between Greece and Montenegro, on the eastern coast of the Adriatic, about opposite the southeastern end of Italy. It is a key to the Balkan countries. It lies across the way from Italy to Constantinople. Italy considers proper settlement of the question of Albania vital to the safety of Italy. Canada itself has an actual interest in the Albanian question for this affects the peace of Europe, and Europe's peace in turn bears upon that of Canada.

The Albanian business has bothered Europe ever since Turkey took Constantinople in 1452-53. It has been a cockpit of war, its people are as distinct in individuality as the Jew and the Irishman. Their success in maintaining their racial distinctness is one of the remarkable facts of history. The United Albanians of 1917 is as distinct and untractable a type as its ancestors who worried Philip of Macedonia, or who laughed the Turkish Sultan to scorn. Scutari, their metropolis, was the capital of a powerful people 10 centuries before Christ.

They are as isolated in Europe as Abyssinia in Africa. Their country is wild and undeveloped. Fighting is their business and amusement. G. G. Scanderbeg, otherwise known as Scanderbeg, was Albanian.

Europe tried in 1913 to make Albania an independent principality, and during the first half of 1914 William of Wied tried to rule. He had to get on account of endless civil wars, and the European war threw the country into a worse chaos than ever. It has been and will be a bone of contention between Italy and Austria. The powers will have no harder problem to settle after the war than disposing of Albania. Either it must become independent or it must form part of a greater Greece.

Important Notice to Our Readers

The greatly increased cost of every commodity entering into the publication of a newspaper makes it imperative that the Western Globe place its subscription lists upon a strictly paid in advance basis. We are pleased to state that comparatively few of our subscribers are in arrears and these are old friends of the paper, we wish to retain. It is the intention to increase the subscription rates to \$1.50 per annum, but for a limited time we will accept renewals from those in arrears at the old rate of \$1.00.

Our subscription auditors, the American Adjusting Association of San Francisco, California, are at present going over our books and when checking is completed will render statements showing the amounts due. Payment may be made either to our auditors or to this office, and we trust you will promptly remit.

The Western Globe has always endeavored to faithfully serve its readers and with our subscription rates upon a cash basis we will be enabled to add many valuable and timely features and cover additional territory.

In keeping with our policy of broadening our usefulness to advertiser and subscriber we have just completed arrangements for the installation of a No. 6, two-magazine Linotype machine which is now being erected. The Western Globe will soon appear in a neater dress and because of a substantial saving in time and labor we will publish more news and a better paper from a mechanical standpoint.

Kindly make payment of your arrears at an early date and by so doing insure a tiger, better and brighter paper.

LESS DYSPESIA NOW - HERE'S THE REASON

The fact that there is less dyspepsia and indigestion in the country than there used to be is largely, we believe, due to the use of Realdis Dyspepsia Tablets. These little, round, white tablets, which we have sold, no wonder we have faith in them. We are now willing to offer them to you for trial entirely at our risk.

Among other things, they contain Peppermint and Bismuth, two of the most effective aids known to medical science. They soothe the inflamed stomach, allay pain, check heartburn and distress, help to digest the food, and tend to quickly restore the stomach to its natural, comfortable, healthy state.

There is no red tape about our guarantee. It means just what it says. We'll ask you no questions. Your word is enough for us. If Realdis Dyspepsia Tablets don't restore your stomach to health and make your digestion easy and comfortable, we want you to come back for your money. They are sold only at the 7,000 Realdis Stores and is the only one by the name. Sizes, 25c, 50c and \$1.00.

**Laurier Would
Disgrace Canada
To Gain Power**

At the Liberal Convention in
Winnipeg, a resolution which is
published elsewhere in the issue
was passed, and with it as a
platform, the Liberals who line
up behind Laurier hope to win
out in the impending election.

The fine working of the mach-
ine politicians is to be seen in
the wording of every sentence in
the resolution. Elimination of
any reference to compulsory ser-
vice clears the way for the adop-
tion of two-faced election cam-
paign such as was proposed by
Hon. George P. Graham some
weeks ago and which was turned
down by the conscriptionist Lib-
erals of Ontario.

To the average western Lib-
eral the resolution passed really
means conscription if it should
be necessary. The Manitoba Free
Press speaking editorially, thus
interprets it and says it should
satisfy the people. It insists
that it could not have been made
stronger.

To the Liberals of Quebec and
the eastern provinces who are op-
posed to conscription the resolu-
tion is quite inoffensive. In Que-
bec particularly, if there should
be any suggestion that it really
means conscription, it will be
necessary only to speak the mag-
ic word, Laurier, and the people
will be satisfied. Laurier has
said that he would not stand for
conscription and the people of
Quebec believe him.

And thus, with a two-faced
policy the machine Lib-
erals

als hope to be able to pull
through the coming election cam-
paign and oust the Borden Gov-
ernment. How successful they
will be in pulling with them the
active conscriptionist members
of their party, who know just
how false the Winnipeg resolution
must be with Laurier as leader
of the party remains to be seen.
That they will be able to win a
general election by this means,
The Globe does not believe. The
people of Canada are hardly ig-
norant enough to be led by the
none in that way.

At this moment, of supreme
peril in our national history
there must be a union of non-
partisan forces to bring the
country through with credit, and
The Globe believes Sir Robert
Borden will be able to create
such a union and with it win the
general election on a win-the-war
policy that will be the same for
the whole of Canada.

SPRING VALLEY NEWS

Everybody can form their own
opinion about the weather.
John Ellis has a new Overland
car.

Fred Andrews spent the week-
end in Spring Valley.

Mrs. Dick Cate will receive on
the first Tuesday hereafter.

The fair population are very
sorry to learn that Miss Ollie
Randall is leaving the Valley
soon.

The magnetism of Gull Lake
seems very strong these days, as
it attracts several people from
the Valley, and neighboring dis-
tricts.

Miss Ethel Morter is home
again after spending a couple of
weeks in Lacombe.

The Red Cross Society met at
the home of Mrs. F. S. Cull next
Wednesday. Everyone came.

Mrs. S. Morter spent the week
with her sister, Mrs. Roemer.

**NEW PERFECTION
OIL COOK STOVE**

FRESH HEATED AIR

Follow the arrows and see how fresh heated air,
used only once, circulates freely around the bread
and bakes it from all sides at once. Proper oven
ventilation prevents "sogginess."

This scientific oven should place the NEW PERFECTION
OIL COOK STOVE in your kitchen. The New Perfec-
tion takes up little room and doesn't overheat the kitchen. The
Long Blue Chimney makes the flames "stay put" with no smoke.

With Regular Coal Oil the New Perfection
will cook your meat for from 3 to 30 cents.
